Office of the First Orange Pip

Mini-Communication #3

To the Amuliant's Butts, Dust, Hall

APR 14 1972

There are several interesting matters in hand as the result of letters from Rebecca and Wanda, thus this Communication seems necessary.

Rebecca was troubled by a dream, calling upon Wanda to see if all was well with the First Orange Pip. Dreams, sleep are among the mysteries of the physical world. In my study of them, in connection with cerebology, it is apparent they are caused by the memory cells being uninhibited when the sympathetic nervous system relaxes. Then, as with the old-fashioned stereoscope when one looked through a tube at the pieces of different colored glasses, a slight shake caused all sorts of designs to appear. In sleep the eyes move rapidly, the body may turn 20 times or more in bed.

Rebecca also reports on "Sherlock Holmes in Portrait and Profile." I haven't seen it yet, nor had I heard of re-makes on the Rathbone series.

Wanda refers to my saying that had once written on the good doctor's ~~estimation~~ estimation of Mr Holmes' "general knowledge." This is found in my "Behind the Abbey Door" as published in Hagar's "Baker Street Four Wheeler." As interest is indicated, I'll include with the exhibits with Communication No. 3

Ho, I've not observed the Don Rickles' show, so missed his refs. to the Master. He's a clever comedian, am sorry his show has been cancelled.

Seems to me it's a good idea to have a symbol and/or motto to identify our Seien Society. You each are clever with your drawing pencils, so please each of you submit what you think would be suitable, and I'll have one of the "headquarters" Baker St. Irregs. decide which is best for the purpose..

Rebecca inquires how we "got" our name. You'll find this dealt with in Communis. Al. Also, the "q.v" is a clue. Namely to see the case of the "Five Orange Pips."

Evidently Janet has not yet seen Rebecca as the letter has not yet received the package for her in Miss Dust's care.

Sorry to hear of Harvudu's encounter. By quite a coincidence the local paper reported yest. that three hangers belonging with others to a woman upstate somewhere, had attacked and badly mauled her. These dogs are savage, heavy and rather unpredictable. Rebecca wants to see the Journal for Dec. '71, an mailing it.

The question of The Great Detective expecting to hear a violinist render something from Chopin, may be found answered in the case of the "Red Circle." Janet will agree that the composer enamed of George Sand, or vice versa, is known to have written nothing for the strings.

And will Janet now please send me the "Sian" booklet. Also, I'd prefer it if you'd all just address me as "Leslie." This is the style followed by Irregulars generally.

Irregularly yours,

L. Marshall
