General Communication #4, August, '72

Order of Transits to the Irregulars & Auxiliants

- 1. Janet Dust, -to
- 2. Wanda Butts, - to
- 3. Rebecca Lynn Hall, to
- 4. Rose Vogel, (non-res.) - to
- 5. Tom Reesor, Bx. - to
- 6. Paul V. Gunning, - to
- 7. Marvin Norton, - to
- 8. Saul Becker, - to First Orange Pip

We are pleased to report a new BSI correspondent Dr. Ronald E. Waal, of Colo. State Univ., Ft. Collins, who having sent for a copy of the St. R. Times article respecting the BSI, and which led to the founding of our Society, is to include it in his "World Bibliography" on Holmes and Watson which, as announced in the BSI Journal, for June, will be published this fall.

Auxiliant Hall's sketch for our official insignia was voted best for the purpose and in due course we shall see its use on our corresp., etc.

It is a pleasure to note the talented activity of the Auxiliants in our Society. It is reported that W. Butts, BSA, is nearing completion, for the publisher, several pastiches of originality, one of them dealing with a case hitherto unknown.

At the same time Rose Vogel, BSA, has submitted her - coauthoring with Fredrick Jaeger - "Some Observations on the Case of the Hound of the Baskerville (sic.)" - to be entitled "The Hound From Hell." Being somewhat too bulky for circulation with this Communic., it has been presented to the Library of the Society. R. Hall, BSA, curator, will loan it upon application. Included is the sensational discovery of a certain letter.

The same may be said of a gift from T. Reesor, BSI, of the little known "Baker Street - A Sherlockian Musical.

Our appreciation is further to be expressed to Mr Reesor for his generosity in offering to loan that nadir of all the writings about the Writings the "Annotated Sherlock Holmes." Answers every question, and questions every answer. This will make a short sojourn in our library but must be returned to the owner, of course. His memorandum on that and other subjects is appended hereto.

Also travelling with this Communication is some most important Intelligence gathered for us by M. Norton, BSI. The account of the re-enactment by the London Scion Society of the dramatic struggle on the ledge of Reichenbach Falls, is most extraordinary.

For those who specialize amongst us in paradigms, Mr Norton also has submitted a Holmes-wise problem. We are told it is a production of the Sozialwissenschaftlicher Bedhadlung !.

We expectantly await anything you may deem of interest for Communication #5.

*P.S. I was about to start this on its rounds Irregularly yours,  
when a courier from P. Gunn BSI brought in Lady Carfax*  
THE FIRST ORANGE PIP
